

SENIOR QA ENGINEER – AUTOMATION & MANUAL TESTING

Experienced QA Engineer with **5 years of expertise** in manual and automation testing across **web, mobile, and wearable devices**. Skilled in **Selenium with Java, Appium, BDD Cucumber, API testing, CI/CD pipelines, and Agile methodology**. Proven ability to lead teams, deliver quality software, and integrate modern test automation frameworks to enhance efficiency and coverage. Seeking to contribute technical expertise and leadership in a dynamic product or enterprise environment.

SKILLS

Jenkins	API Testing using Postman	Client Meetings
Selenium with Java	Database Testing	JIRA Tool
BDD Cucumber Framework	Web App Testing	IOS & Android App Testing
TestNG	Website Testing	CI/CD

EXPERIENCE

Sr. QA Engineer

SKO Systems Jul 2024 - Present

- Participated in Agile ceremonies (Scrum, sprint planning, retrospectives).
- Designed, automated, and executed test cases using **Selenium, Appium, TestNG, Cucumber**.
- Managed defects via **Azure DevOps**, collaborating with developers for closure.
- Performed **API testing** (Postman, Rest Assured) and **SQL database validations**.
- Conducted **mobile app testing** (manual + automation) for Android & tablets.
- Leveraged AI tools (ChatGPT) to generate test scenarios, edge cases, and API validation logic, reducing test design time by ~30% and improving coverage.
- Mentored a **2-member automation team** and provided product knowledge training.

Sr. QA Engineer

Yodda Elder Care Technologies PVT LTD Jun 2023 - Jul 2024

- Led QA efforts in multiple projects, driving robust **test planning and execution**.
- Developed and maintained **Selenium automation frameworks** with Java, TestNG, and Maven.
- Conducted **manual & regression testing** to validate functionality and performance.
- Implemented and maintained **Jenkins CI/CD pipelines** for automation execution.
- Performed **API testing & automation (Postman, Rest Assured)** and **device testing** for wearables.
- Documented test results, generated detailed QA reports, and presented insights to stakeholders.
- Enhanced device reliability, contributing to a **15% increase in customer satisfaction**.

Sr QA Engineer

ITWorks Infotech PVT. LTD. Oct 2020 - May 2023

- Executed manual testing (functional, regression, system) for **web and mobile applications**.
- Designed and executed **test plans, test cases, and automation scripts**.
- Collaborated with cross-functional teams for **requirement analysis and bug resolution**.
- Conducted **UI testing, integration testing, and database validations**.
- Tracked and reported defects using **JIRA**, ensuring timely closure.
- Contributed to multiple projects, ensuring **100% closure rate** on tracked defects.

KEY PROJECTS

Surgicloud Inventory

Web & App Testing, Defect Management (JIRA), UI/UX validation.

Promentor

End-to-end testing (Manual + API), Test documentation, Bug reporting.

Academy

Database testing (SQL), Regression testing, Usability validation.

Yodda EnablePlus

QA ownership for app usability, reporting, and bug tracking.

mBark

Handled QA ownership of multiple mBark applications for clients (CCL, HAL, CUK, VOC) covering web, mobile, API, and automation testing.

EDUCATION

MCA (Master's in Computer Application)

Pratibha Institute of Business Management Aug 2017 - Apr 2020

BCA (Bachelor's in Computer Application)

Dyanvardhini College of Chikhali Pune Jul 2014 - Apr 2017

HSC

Nav-Maharastra College Pimpri Pune Jul 2012 - Feb 2014

SSC

Abhinav Vidhyalaya Chikhali Pune Mar 2012

TOOLS & TECHNOLOGIES

JIRA, Postman, Rest Assured, Selenium, Appium, Jenkins, GitHub Actions, Apache JMeter, Azure DevOps, SQL, App Center

AI-DRIVEN TESTING ENHANCEMENTS

AI in Testing

- AI-assisted test case generation (ChatGPT / prompt engineering)
- Automated test data generation using AI
- AI-based defect analysis & root cause identification
- Self-healing test scripts (basic exposure)
- Test scenario optimization using AI tools
- Used ChatGPT/Gemini for:
 - Generating BDD scenarios
 - Creating negative test cases
 - Writing Selenium scripts faster
- Reduced test case preparation time and improved defect detection in early stages
